Marvin –

Are you planning to attend this meeting in person? That might give us a chance to touch base on enforcement issues related to the Wilcox site.

I was also hopeful that you and I might talk briefly before this meeting. See the attached amended complaint. I have some concerns about meeting with the plaintiffs and their attorney in this proceeding.

If you have a little time, perhaps you could call me. My office number is 405 702-7175.

Pam

Mark and company, it will be very helpful to us if you would please list the items you would like to discuss and what additional questions you have about the site. By doing this, we can make sure that we have the necessary information and any visuals we need to help us explain the site and any activities completed and planned.

One topic I anticipate discussing is the Source Control Action that address the lead additive area and identified tank waste areas.

thanks
